10 Years of experience

Professional Bio:

Jessica Linn Stephens, MPH, is a global health advisor with over 10 years of experience designing data systems, building digital tools, and translating evidence into action across government, NGO, and donor-funded programs. She combines technical rigor with strategic communication to transform complex datasets into clear, actionable insights that drive programs, shape policies, and inform funding decisions. Whether building dashboards, leading evaluations, or facilitating capacity strengthening, Jessica brings a people-centered approach to ensuring data is used meaningfully to advance equity and sustainable development.

Skills & Expertise:

Digital Development / ICT4D; Monitoring, Evaluation, and Learning (MEL); Strategic Planning; Localization / Capacity Strengthening; Global Health; Program/Project Management

Sectors of Work:

Public Health; Democracy & Governance

Languages Spoken:

English, Spanish, French
